

LIAISE newsletter

What is LIAISE COST Action?

The objective of the LIAISE COST Action is to foster a comprehensive and inclusive approach to Industrial Symbiosis by creating meaningful synergies among diverse stakeholders from the quadruple helix model. It aims to lay the foundation for strengthening knowledge development and advancing results-driven research and innovation

Grants

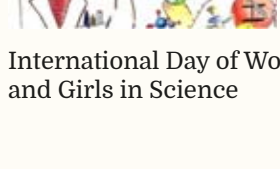

During the second grant period LIAISE COST Action, launched several open calls and finally 2 Virtual Meetings (VM) Grants, 2 Dissemination Grant, 11 Inclusiveness Target Country Conferences Grants (ITCG) and 8 Short Term Scientific Missions (STSM) Grants were given. We are excited to see the results of these missions and the valuable contributions they will make

to our field. We would like to extend our warmest congratulations to all the grant recipients and wish them every success in their research and collaborations. We are proud to support the work of our members in this way and look forward to seeing the results of their efforts.
